

AMERICAN LATIN CLASS ATTENDANCE SYSTEM

Uri Design

Table of Contents

[URI Design](#)[Conventions](#)[Resource Areas](#)

URI Design

Base prefix: `/api/v1`

Conventions

- Use plural nouns for resources: `/students`, `/teachers`, `/branches`.
- Use nested action segments only for domain commands that are not simple CRUD: `/teacher-attendance/check-in`, `/teacher-attendance/{id}/check-out`.
- Use reports under `/reports` because they are read-only projections.
- Use path parameters for identity: `/users/{id}/role`.
- Use query parameters for report filters: `?from=2026-01-01T00:00:00.000Z&to=2026-03-01T00:00:00.000Z`.
- Use JSON request/response bodies.
- Return consistent envelopes: `{ success, message, data }` and `{ success:false, message, details }`.

Resource Areas

Area	URI Pattern
Auth/session	<code>/auth/config</code> , <code>/auth/login</code> , <code>/auth/google</code> , <code>/auth/me</code> , <code>/auth/logout</code>
Users/roles	<code>/users</code> , <code>/users/{id}/role</code> , <code>/roles</code> , <code>/permissions</code>

Area	URI Pattern
Academic catalog	<code>/branches</code> , <code>/dance-categories</code> , <code>/dance-styles</code>
People	<code>/students</code> , <code>/teachers</code>
Scheduling	<code>/class-groups</code> , <code>/class-sessions</code>
Attendance	<code>/student-attendance</code> , <code>/teacher-attendance/check-in</code> , <code>/teacher-attendance/{id}/check-out</code>
Justifications	<code>/absence-justifications</code> , <code>/absence-justifications/{id}/review</code>
Evaluations	<code>/scholarship-evaluations</code> , <code>/level-promotion-evaluations</code>
Reports	<code>/reports/branches/summary</code> , <code>/reports/scholarships/{studentId}/candidate</code> , <code>/reports/level-promotions/{studentId}/candidate</code> , <code>/reports/teachers/{teacherId}/payment</code>
Audit	<code>/audit-logs</code>
