Test Plan

Scope

- Unit tests for attendance rules, scholarship eligibility, promotion eligibility and teacher payment.
- Integration tests for auth/session, RBAC and academic workflows.
- Security behavior tests for logout, expired sessions and private no-store/redirect behavior.

Test Cases

Area	Case	Expected Result
Auth	Login with mock Google token in test mode	User and session cookie returned.
Auth	Logout	Session is revoked and <code>/auth/me</code> returns 401.
Auth	Invalid token	Login returns 401.
Auth	Expired session	<code>/auth/me</code> returns 401.
Browser cache	Private page without session	<code>Cache-Control: no-store</code> and redirect to landing.

Area	Case	Expected Result
Browser cache	Private dashboard with valid session	Returns protected dashboard.
RBAC	Student accesses consolidated reports	Returns 403.
Attendance	Duplicate student/session record	Returns 409.
Absence	Director reviews justification	Review status is updated.
Scholarship	Attendance >=90% plus scores	Evaluation can be registered.
Promotion	B1 candidate plus scores	Evaluation can promote to B2.
Payment	Checked-out teacher hours	Amount equals hours times hourly rate.

Execution

```
cd 06Code
npm test
```

Expected evidence:

```
Test Suites: 4 passed, 4 total
Tests:      13 passed, 13 total
```
